## Lemonade

### Ingredients

#### Imperial/Metric

8 lemons, halved  
1 lemon, finely sliced  
1½ /375g of white sugar

Juice halved lemons (you should have about 1 1/2 cups). In a small saucepan, bring sugar and 1 1/2 cups water to a simmer, stirring until sugar is dissolved. Add lemon rinds; cook over medium until mixture is syrupy, about 12 minutes. Strain; let cool completely

Stir in juice and 8 cups cold water. Top with ice and lemon slices and mint if you wish. Serve.
